Money Easier-Governments Strong and Higher-Favorable News from London-Gossip About Georgia Bonds.

Wall Street, Wednesday, Nov. 13-6 P. M.)
On 'Charge to-day quite a large business was transacted in cotton, but for "spot" and "future anchanged; wheat was heavy, but not quotably lower, and corn was easier. BOSTON INDEPENDENCE.

A Washington despatch says that the Boston merchants have telegraphed to Secretary Boutwell requesting him not to issue any of the reserve of erchants of Boston wish to buy goods to replenish their stocks. More greenbacks would inflate prices. Men with money are opposed to inflation. Men with goods and property desire inflation. Such is human nature.

The offerings of bonds at the Sub-Treasury at moon to-day amounted to \$2,536,150, at prices ranging from 112.30 to 113.47, gold being 113%. The acceptances were confined to a million, which amount was obtained at 112.40 a 112.98. The acceptance of enly a million was much commented upon, in view of what had been expected of the Treasury Department this week. The petition of the Boston merchants may have had something to do with it, but regret is felt that Mr. Boutwell did not take advantage of a chance, not often presented, of buying so many bonds offered at par in gold or under.

THE FOREIGN MARKET. although a rumor was current at the close that the Bank of England would raise the discount rate to eight per cent in the morning. Telegrams from the Continent report the exchanges again in favor of London, while London quotations show a further advance of one-eighth per cent in our five-twenties, continued firmness in consols and a rise of 1% per cent in Eries, which last closed at 39%, against 37%

Foreign exchange was dull and about steady, but hardly so firm, and was quoted on the basis of 108% a 108% for actual business in prime sixty-day ster-

MONEY EASIER. The money market was easier, although quite active during the greater portion of the day. The sarliest dealings in call loans were at 7 per cent currency to 7 per cent gold, and a good many renewals were made on these terms, Toward two o'clock the inquiry increased, and borrowers in the interval between two and half-past two paid as high as one-eighth per cent for the day, but the supply became better again, and before three k the rate had declined to plain 7 per cent. The failure of a dry goods commission house, doing business in Boston and New York, was announced this afternoon. Mercantile paper was neglected, but still quoted at 9 a 12 per cent discount, with some small transactions at 10 a 12 per cent.

The gold market was feverish and unsettled in asequence of conflicting and changing views of the Treasury intentions and modified ideas as to specie shipments. The early announcement that the steamers had taken out only \$900,000 specie against \$1,400,000, the latest engagement of Tuesday evening, \$500,000 having been withdrawn this morning, caused a decline to 113%. Later in the day when it was known that the Secretary of the Treasury had bought only a miltion of five-twenties-a proceeding implying that he would sell only a million of gold to morrow—there was an advance to 113%. Still later, on the announcement that the Boston merchants had petitioned Mr. Boutwell not to issue any more

greenbacks,
THE SUGGESTION OF CONTRACTION thus made started a decline to 11314, the market closing eventually at 113% on the discovery that the specie engagements for to-morrow footed up \$1,300,000. The course of the market, which in these several fluctuations was also influenced more or less by the items from London already adverted to, is shown in the following table:—

STOCKS UNSETTLED AND LOWER.
The stock market opened strong and buoya and prices advanced % a 1% per cent over the b of the previous day, but the large rise invited resizations on the part of the cliques and profession operators and others who had a large profit opurchases made during the "break" on Monda The small purchase of government bonds all caused a feeling of disappointment, which led an active selling movement late in the afternoon and a decline from the morning's best prices rai ing from 1 to 2 per cent for most of the leads speculative favorites.

from the reaction which followed Monday's exci ment and depression is not surprising, in view the fact that within forty-eight hours stocks h risen all the way from 3 to 9 per cent. But, w all this, the game of selling out for "a turn" not one that outsiders would do well play. Even among professionals it is ofte times a losing one, and always an unsafe on Considering the improved tone of the foreign markets and the independent spirit of the Bosto sufferers the situation of matters to-day is me favorable than ever to a thorough recuperation the market from its recent depression. Business continued sluggish to-day in nearly all its ramifications, and very little activity or buoyancy was anywhere apparent. Though no insurmountable difficulties have arisen from the great disaster at Boston, the money and stock markets having experienced less disturbance than was feared, yet a good deal of uneasiness is still manifested, and apprehensions of radical changes in mercantile values are not entirely done duli since the fire, but a little improvement has been manifest from day to day, and it is hoped sumed their normal condition. On 'Change to-day flour was dull. Wheat was easy but no lower. in good demand; quite a large business was consummated at rather firmer prices. Pork was duli, but nominally unchanged, while lard was decidedly more active, but at easier figures. Petroleum was firmly held. Naval stores were dull. Groceries COFFEE.-The market generally remained quiet
